**Mission:** Policies exist to serve the needs of the district and to serve the district's need to comply with various regulatory demands. Policies are designed to influence the activities that take place within the boundaries set by them. The policy committee performs a comprehensive review of policies and administrative regulations to ensure compliance with federal and state laws and regulations with input from stakeholders. In other words, the point of view held by the board of school directors is translated into steps that result in an outcome compatible with that view. **Vision:** Review any/all policies and administrative regulations; Create and/or review any policies recommended by the solicitor based on current events; Retire any policies in place that are no longer needed.
